“ Pleasant memories of the Osier family remind me of a time when neighborhoods were closer knit than today. Such memories often serve as my crutches while I walk the road of life. May fond memories of Janice be your support during trying times. My condolences to her family and friends.

“ My condolences to Janice's family. Janice and I were together at Harrison Elementary School for her Fourth Grade year of school. I noted in her obituary that the zest and enthusiasm characterizing her as a nine year old continued into adulthood and will be part of cherished memories for her family to hold. I remember well my smiling and lively student.
